

Financial Policy

Payment is due when services are rendered unless other arrangements are made in advance.

It is very important that you understand that we file your insurance as a courtesy to you. However, you are responsible for payment regardless of what percentage insurance pays, when it pays, or if it pays.

An additional 40% will be added on to all accounts requiring collection by an outside source (a collection agency). If an account is sent to an attorney for legal action; court and reasonable attorney fees will be added.

I have read, and understand the above financial policy, and agree to the terms therein.
